

# Brownie Barfly Bits

Refrigerate all items if you are not going to enjoy immediately. The brownies may be left out on counter 5-7 days in an air-tight container.

If you prefer a warm brownie we recommend warming each brownie 10 seconds in a microwave.

Frosting can be microwaved 5-10 seconds (then stirred before spreading) or leave out on the counter 2-3 hours before serving.

Other toppings can be served warm, if desired. Remove lid and microwave 20 seconds.

*The Brownie Bar makes all brownies and toppings from scratch with real ingredients (real butter, real vanilla, real cream, real fruits, etc.)*

*You will notice the difference!*
